SAFETY DATA SHEET

	ON 1: Identification of the substance/mixture and of the company/undertaking
	.1. Product identifier
	Trade name TRANSPARENCY Product no.
1	- REACH registration number Not applicable .2. Relevant identified uses of the substance or mixture and uses advised against
	Relevant identified uses of the substance or mixture Cleaning liquid Uses advised against
1	- The full text of any mentioned and identified use categories are given in section 16 .3. Details of the supplier of the safety data sheet
	Company and address BLITZZ Aps Barsøvænget 22 6000 Kolding
	Denmark Tfn: +45 27 89 34 33
	www.blitzz.dk E-mail info@blitzz.dk SDS date 2021-11-22 SDS Version
1.	 1.2 .4. Emergency telephone number Contact The National Poisons Information Service (dial 111, 24 h service). See section 4 "First aid measures".
CTIC	ON 2: Hazards identification
	 1. Classification of the substance or mixture Flam. Liq. 3; H226 Eye Irrit. 2; H319 See full text of H-phrases in section 2.2. 2. Label elements
	Hazard pictogram(s)
	Signal word Warning

According to EC-Regulation 2015	/830
General	If medical advice is needed, have product container or label at hand. (P101).
	Keep out of reach of children. (P102).
Prevention	Wear eye protection/gloves. (P280).
Response	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact
	lenses, if present and easy to do. Continue rinsing. (P305+P351+P338).
Storage	Store in a well-ventilated place. Keep cool. (P403+P235).
Disposal	Dispose of contents/container to an approved waste disposal plant. (P501).
Identity of the substa	nces primarily responsible for the major health hazards

SECTION 4: First aid measure	S
4.1. Description of first a	id measures
General information	
	ent: Contact a doctor or casualty department – take the label or this safety data sheet.
	act The National Poisons Information Service: Dial 0344 892 0111 (24 h service).
Contact a doctor if in	n doubt about the injured person's condition or if the symptoms persist. Never give an
unconscious person	water or other drink.
Inhalation	

Inhalation

Bring the person into fresh air and stay with him/her.

Skin contact

Remove contaminated clothing and shoes immediately. Ensure to wash exposed skin thoroughly with soap and water.

Eye contact
Remove contact lenses. Flush eyes immediately with plenty of water or isotonic water (20-30°C) for at least 5 minutes and continue until irritation stops. Make sure to flush under the upper and lower eyelids. I irritation continues, contact a doctor. Continue flushing during transport.
Provide plenty of water for the person to drink and stay with him/her. In case of malaise, seek medical advice immediately and bring the safety data sheet or label from the product. Do not induce vomiting, unless recommended by the doctor. Have the victim lean forward with head down to avoid inhalation of or choking on vomited material.
Burns Rinse with water until the pain stops then continue to rinse for a further 30 minutes.
4.2. Most important symptoms and effects, both acute and delayed
This product contains substances, which may cause irritation upon exposure to skin, eyes or lungs. Exposure may result in an increased absorption potential of other hazardous substances at the area of
exposure.
4.3. Indication of any immediate medical attention and special treatment needed
IF exposed or concerned: Get immediate medical advice/attention.
Bring this safety data sheet.
SECTION 5: Firefighting measures
5.1. Extinguishing media
Recommended: alcohol-resistant foam, carbonic acid, powder, water mist.
5.2. Special hazards arising from the substance or mixture
If the product is exposed to high temperatures, e.g. in the event of fire, dangerous catabolic substances ar
produced. These are: Carbon oxides. Fire will result in dense black smoke. Exposure to combustion products may harm your health. Fire fighters should wear appropriate protection equipment. Closed
containers, which are exposed to fire, should be cooled with water. Do not allow fire-extinguishing water to
enter the sewage system and nearby surface waters.
5.3. Advice for firefighters
Wear self-contained breathing apparatus and protective clothing to prevent contact. Upon direct exposure contact The National Poisons Information Service (dial 111, 24 h service) in order to obtain further advice.
SECTION 6: Accidental release measures
6.1. Personal precautions, protective equipment and emergency procedures Storages not yet ignited must be cooled by water mist. Remove flammable materials if conditions allow it.
Ensure sufficient ventilation. 6.2. Environmental precautions
Ensure sufficient ventilation. 6.2. Environmental precautions No specific requirements.

PNEC (propan-2-ol): 2251 mg/l Exposure: Sewage Treatment Plant
PNEC (propan-2-ol): 552 mg/kg dw Exposure: Freshwater sediment 8.2. Exposure controls Compliance with the accepted occupational exposure limits values should be controlled on a regular basis. General recommendations
Observe general occupational hygiene standards

Observe general occupational hygiene standards.

Exposure scenarios

There is no appendix to this safety data sheet.

Exposure limits

Professional users are subjected to the legally set maximum concentrations for occupational exposure. See occupational hygiene limit values above.

Appropriate technical measures

Ensure emergency eyewash and -showers are clearly marked.

Hygiene measures

In between use of the product and at the end of the working day all exposed areas of the body must be washed thoroughly. Always wash hands, forearms and face.

Measures to avoid environmental exposure

No specific requirements.

Individual protection measures, such as personal protective equipment

According to EC-Regulation 2015/830	
Generally	
Use only CE marked protective equipment.	
Respiratory Equipment	
NA	
Skin protection	
Dedicated work clothing should be worn.	
Hand protection	
Nitrile rubber	
Breakthrough time: > 480 minutes (Class 6)	
V Eye protection	
No specific requirements.	
SECTION 9: Physical and chemical properties	
▼9.1. Information on basic physical and chemical p	roperties
Form	Liquid
Colour	Blue
Odour	Mild
	No data available.
Odour threshold (ppm)	
pH Viceosity (40°C)	10,5 No data available
Viscosity (40°C)	No data available.
Density (g/cm ³)	0.975
Phase changes	Nuclear and the
Melting point (°C)	No data available.
Boiling point (°C)	No data available.
Vapour pressure	No data available.
Decomposition temperature (°C)	No data available.
Evaporation rate (n-butylacetate = 100)	No data available.
Data on fire and explosion hazards	
Flash point (°C)	35
Ignition (°C)	No data available.
Auto flammability (°C)	No data available.
Explosion limits (% v/v)	No data available.
Explosive properties	No data available.
Solubility	
Solubility in water	Soluble
n-octanol/water coefficient	No data available.
9.2. Other information	
Solubility in fat (g/L)	No data available.
SECTION 10: Stability and reactivity	
10.1. Reactivity No data available	
10.2. Chemical stability	
The product is stable under the conditions, noted	in the section "Handling and storage".
10.3. Possibility of hazardous reactions	
Nothing special	
10.4. Conditions to avoid	
Avoid static electricity.	
10.5. Incompatible materials	
Strong acids, strong bases, strong oxidizing agen	nts, and strong reducing agents.
10.6. Hazardous decomposition products	
The product is not degraded when used as specif	fied in section 1.
SECTION 11: Toxicological information	
11.1. Information on toxicological effects	
Acute toxicity
